What skills or knowledge did you learn or improve from this instructor?: Helen Kissel

- Coding help
- Critical thinking
- How to understand and interpret papers and studies in a real-world context, and also how to apply concepts from course lectures to real-world applications.
- I would go to Helen's office hours whenever I had questions on the pset and/or class materials.
- everything
- Helen was also very helpful in the office hours. I struggled the most with coding and I attended her office hours every week to ask questions about the problem set.
- An ability to apply topics from class to real world applications
- Analyzing data, understanding economics papers, family economics
- I learned how to better read and understand economic papers and regression experiments.
- I never had any interactions with her
- How to use R
- coding
- Helen is great at explaining concepts in economics and presenting them in a way that makes sense. I loved going to section and learning from her.

What aspects of this instructor's teaching were most helpful to you?: Helen Kissel

- Office hours
- Knowledge of Material, Kindness, Willingness to Help
- Helen is super accommodating and responsive over email. I didn't attend very many sections, but in the one I did attend, Helen was super nice and very helpful in answering everyone's questions!
- I really liked how Helen would explain concepts and help clarify details that I was confused about in the question. She would use examples from lecture and break things down for people to understand in the office hours, which I really appreciated.
- great on all fronts
- approachable, knowledgeable, helpful, supportive
- I really liked Helen's sections as her presentations really showed that she wanted us to take away the most from these sections. She cares a great deal about her students
- Her consistent eagerness to engage the section Her application of class topics to other problems Her explanations of topics that weren't fully understood
- aspect 1: provides good explanations of class material
- Clarity, willingness to help
- Discussion of research papers/experiments
- I don't know
- engagement
- Incredibly kind and helpful during office hours; always willing to talk through questions and offer guidance for problem sets.
- Attentive Cogent Kind

How can this instructor's teaching be improved?: Helen Kissel

- N/A
- N/A, Helen was absolutely incredible and genuinely one of the best TAs that I have ever had. She was so helpful and understanding and always excited and so kind to help with anything that came up in the course. She was extremely knowledgeable and the best TA that I could have asked for for this class.
- Can't think of anything off the top of my head!
- already great
- If she had a deeper understanding of some of the more complex topics (specifics of papers) If she pushed our understanding by asking us challenging questions If she had more sections
- Discussion of more of the Stata/R code needed for problem sets would have been helpful (there was a lot I just had to get from office hours)
- I don't know
- None.
